

RECYCLING COLLECTION SERVICE

With your commercial trash service, you will also be provided with recycling services. Your service will include a 96-gallon cart for FREE. Additional recycling containers or capacity will be charged at half the rate or less as those for trash service.

WHY RECYCLE?

Recycling not only helps you reduce the amount of material that is placed in your trash container but it also protects the environment and your local community. Recycling helps conserve resources and energy, and preserves valuable landfill space.

Recycling one ton of Aluminum:

- Saves 14,000 kWh of energy
- Saves 10 cubic yards of landfill space

Recycling one ton of cardboard:

- Saves 390 kWh of energy
- Saves 1.1 barrels (46 gallons) of oil

Recycling one ton of glass:

- Saves 42 kWh of energy
- Saves 2 cubic yards of landfill space

HOW TO RECYCLE?

Place all recyclable accepted materials into the recycling container provided by WARE Disposal. Make sure that your materials are clean and dry. A complete list of acceptable materials is attached.

HOW TO PARTICIPATE?

In order to maximize you recycle service, follow these simple steps:

- Place all recyclables loose (without a bag) in your recycling container.
- All recyclables must be emptied of food and/or liquid before placing in the recycling container.
- Flatten carboard boxes to save space.
- Recycle the times above only, keep all non accepted items out of the recycling container.

Placing only clean acceptable materials in your recycling container, will ensure that those materials are recycled properly!
